**About the Konovalchuk Family:** Aleksey and Anna have three children – Akim who is six, Abigail who is two, and a newborn baby boy. The family of five currently lives in an over-crowded apartment where their older son and daughter have to share a bedroom. Aleksey works as a truck driver and has longed to move his family into a home of their own where his children didn't have to share a room, but they simply couldn't afford it until they found Habitat. Says Anna, "We are so happy. We are counting down the days!"

**All are welcome.**  
Lunch will be served following  
the ceremony.
